Needle Electrodes Accessories

This Cadwell's Needle Holder is designed to securely hold up to two needle sheaths and also features a clip to provide cable management for Cadwell's EMG needles. The needle holder can be mounted on the left or right side of the amplifiers.

SD Part Number	Description	Qty
SDC-MI0002	Needle Sheath Holder clamp style w/Foam Adhesive	Each

Reusable Electrodes for EMG/NCS

Reusable Ground Plate Electrodes

Constructed of solid stainless steel, custom-molded ground electrodes are designed with a flat contact surface that provides long-lasting performance. Can be used with tape and has a flat contact surface. Features a green lead wire with bend-relief protection for added durability.

SD Part Number	Description	Diameter	Length	Qty
SDC-SE0010	Ground Plate Electrode, Flat	30mm	61cm / 24"	Each
SDC-SE0011	Ground Plate Electrode, Flat	30mm	122cm / 48"	Each

Disposable Electrodes for EMG/NCS

Disposable NCV Electrode Sets - 2 Disc + Ground Pad

Cadwell NCS **2 Disc** + ground pad pack electrodes are colour-coded to match amplifier inputs. The red & black wires are paired in parallel to help reduce environmental noise and shock artifact, these can be separated as needed. Electrodes are pre-gelled 20mm Ag/AgCL ideal for nerve conduction, R-R Interval, autonomic and evoked potential studies. Each box contains 24 packs with 2 disc and one ground electrode in each pack.

SD Part Number	Description	Length	Qty
SDC-SE1005	NCV Disposable 2 Disc + Ground Pad Electrodes	0.5m / 20"	24 / Box
SDC-SE1006	NCV Disposable 2 Disc + Ground Pad Electrodes	1.0m / 39"	24 / Box

ARTG ID: 192084 | WAND: 181026-WAND-6RB3UX

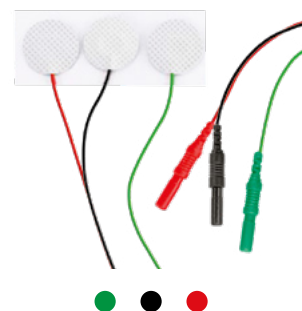

Disposable NCV Electrode Sets - 3 Disc

Cadwell NCS **3 Disc** electrodes are colour-coded to match amplifier inputs. The Red & Black wires are paired in parallel to help reduce environmental noise and shock artifact, these can be separated as needed. Electrodes are pre-gelled 20mm Ag/AgCL ideal for nerve conduction, R-R Interval, autonomic and evoked potential studies. Each box contains 24 packs with 3 disc electrodes in each pack.

SD Part Number	Description	Length	Qty
SDC-SE1012	NCV Disposable 3 Disc Electrodes	0.5m / 20"	24 / Box
SDC-SE1013	NCV Disposable 3 Disc Electrodes	1.0m / 39"	24 / Box

ARTG ID: 192084 | WAND: 181026-WAND-6RB3UX

Disposable Electrodes with leads - 4 Disc

Cadwell Disposable **4 Disc** Electrodes are designed with an Ag/AgCl sensor and an extra thick and flexible conductive gel. The electrodes are used for recording, stimulation and ground use, are highly flexible and can be repositioned on all types of skin. The electrode is designed for patient comfort and user friendliness with soft wires and an optimized connector for easy headbox insertion and extraction.

SD Part Number	Description	Length	Qty
SDC-SE1007	NCV Disposable 4 Disc Electrodes	1.0m / 39"	24 / Box
SDC-SE1008	NCV Disposable 4 Disc Electrodes	1.5m / 59"	24 / Box

Symbiotic Devices was founded in 2012 on a passion not only for neuroscience and neurotechnology, but also to provide clients with uncompromised quality, reliability and assistance. Striving to contribute to a sustainable successful research and clinical sectors across Australia and New Zealand, Symbiotic Devices aims to balance quality, accessibility and customisation.

We know that each neurophysiology project will present unique challenges, and our wide range of partners means we are able to provide customised and dynamic solutions to fit our client's needs.

First partnering with Brain Products, EasyCap and Rogue Research, Symbiotic Devices now proudly represents CED, Deymed, Cadwell, NeuroConn/NeuroCare, Rhythmlink, Pearl Technology and VPixx.

If you want the best solutions for your neuroscience and neurophysiology needs, you can trust Symbiotic Devices to provide the highest quality equipment, applications and support while contributing to a sustainable and ethical future for neuroscience practices.
